

# Museum Suppliers

## Contacts and Resources for Victorian Museums

### Disclaimer

These listings are presented for information purposes only, and do not represent endorsement by Museums Australia (Victoria), its affiliates or employees.

### Introduction

This list aims to assist Victorian galleries and museums of all kinds in sourcing suitable equipment and materials. It includes some national as well as state suppliers because some supplies are highly specialised and only provided by a few businesses. Listings are based on information and recommendations from museums who have received Building Better Museums (BBM) grants in 2009 and Building Better Regional Museums (BBRM) grants in 2008, 2006 and 2005. These Museums Australia (Victoria) grant programs have been supported by Arts Victoria through the Community Support Fund.

### Tips

- It may be more appropriate to lease or borrow than purchase some items
- Explore sustainable options such as quality items that will last and can be re-used, refillable printer cartridges, recycled paper, second-hand or refurbished fittings and furnishings and commissioning local suppliers using local materials
- Collections conservation requirements need to be addressed first and foremost – for example some types of materials will be more suitable for museum purposes than others and so recycled, repurposed or less costly options may not be appropriate

### Choosing the right materials and equipment for your museum

It's not always easy to work out what's best and decide on cost-effective, sustainable solutions that also meet conservation and access needs.

Background research can assist museums to work out what's best and decide on cost effective, sustainable solutions that also meet conservation and access needs.

*The National Standards for Australian Museums and Galleries* is a useful starting point for background research. The standards and benchmarks show what to aim for. The tips and resource lists are linked to a wealth of publications and websites that can help you on your way. You can download *The National Standards for Australian Museums and Galleries* from [www.collectionsaustralia.net/sector\\_info\\_item/107](http://www.collectionsaustralia.net/sector_info_item/107)
